Introduction

We will discover the most emblematic monuments of Seville by mini-bus: the University, the Old Tabacco Factory scene of the story of Carmen, Bizet's famous character. We will then see the Plaza de Espana, the centerpiece of the 1929 Iberoamerican Exposition followed by the famous building known as the Queen Sewingbox "El Costurero de la Reina", San Telmo Palace and Triana neighbourhood.

See first hand the untouched sides of the Golden Tower, the famous calle Betis, the Bullring, Triana Bridge - the oldest in the city, designed by none other than Gustav Eiffel himself and the more modern bridges and the Pavillions, built during the 1992 Exposition. Close by also we'll see the famous Isla de la Cartuja and its Monastery where Cristopher Columbus lived for some years.
